

The Annex Cat Rescue has successfully rescued and matched over 5000 cats and kittens with good adoptive homes since 1997. All Annex Cat Rescue cats live in real homes with our foster volunteers, not in cages! This way the cats blossom in a normal home environment and receive good food, veterinary care and of course, lots of love.

We get to know each cat very well, so we can help find the best cat for you! Contact us today and let us do the match-making with your purrrfect new feline friend.
